

Stem Cell Imaging - Bench to Bedside - a 15 Year Journey

State Key Laboratory
of Chemical Resource Engineering

干细胞成像——从科研到临床的15年历程

报告人: Prof. Kishore Bhakoo

时 间: 2019年9月9日(周一) 10:00-11:00

地 点: 化新楼B座 211会议室

报告人简介:

Prof. Kishore Bhakoo received his PhD from Institute of Neurology, University of London in 1983, and completed his postdoctoral training at the Ludwig Institute for Cancer Research later. In 2009, Prof Bhakoo was appointed as Head of Translational Molecular Imaging Group, at the Singapore Bioimaging Consortium (SBIC). In 2011, Prof Bhakoo was appointed Director of the newly established facility at A*STAR, which worked directly with industry to develop new drugs through imaging technologies. Prof. Kishore Bhakoo's research interests mainly focuses on cellular imaging study and stem cell relevant study including stem cell tracking. Prof. Kishore Bhakoo has published representative articles in high ranking journals, such as *Biomaterials*, *Mol. Ther.*, *J. Tissue Eng. Regen. M.* and so on.
